

PROSTHETIC COVER **CONFETTI**

WE ARE ID!

Young, Brazilian, entrepreneurial and with innovation in our DNA.
Made by people who are passionate about improving and changing
people's lives. We think, invest and work every day in favor of healthcare solutions
based on **creativity, usability and design.**

Founded in 2016, we created **Confetti**, the first large-scale,
colored, custom-made prosthesis cover in the world, compatible with
transfemoral and transtibial amputations, replacing the foam and cosmetic
socks. Awarded internationally, it is a success among users from several
countries, being part of a promising journey of **innovative products.**

From now on, you are our guest to be part of this infinite universe of
possibilities, integrating a network of workshops and partners who want to
transform the lives of thousands of people around the world through our
innovations.

Welcome!

reddot award 2017
best of the best

MODELS

The **Confetti** Prosthesis Cover was designed for patients with lower limb amputation.

With **Confetti**, it is possible to influence people by showing that one can believe, go beyond and dress the world with more colors and self-esteem. The mission is to express your identity, bringing inspiration and a positive attitude to all amputees.
